Project : UVGI Purification System

Contractor: MSL Global Corporation

In compliance with the requirement set by DTI-DOLE in response to the COVID pandemic and as stated in the Supplemental Guidelines on Workplace Prevention and Control of COVID-19 (Joint Memorandum Circular No. 20-04-A Series of 2020), the management approved the installation of the purification system.

Thru the system's state-of-the-art purification and sterilization, this will help in lessening the probable transmission of virus within the premise and in strengthening organization's COVID measures amidst the constant surge of COVID cases.

Ceiling mount installation commenced last March 17 to March 24, 2022, in closed-room areas with a total of 70 units.

#### INSTALLATION OF UVGI
